

Scientific™ C Range Cooling Water Care Products Launch!

Lonza Water Care expands its Cooling Water Care Offering

- Solid concentrate water care products
- Modern anti-scaling, anti-fouling, and corrosion inhibitor technology
- Can be used for various cooling water applications

The long-awaited Scientific™ C Range Cooling Water Care Products are here! These products help to allow an increase in cycles, aiding in improved efficiency and water consumption. With a solid product chemistry, there is no potential to leak when compared to liquid alternatives and lower transport and storage costs can be enjoyed. Available in disc and stick forms. Depending on the form, product can be dosed manually or via an approved Lonza feeder system.
