

HTH Scientific® Pit Latrine Sanitizer Tablets
A reliable solution for treating pit latrines

How to Use

1. Simply open the pouch and drop the sanitizer tablet into the pit latrine.
2. Always ensure that there is water in the pit latrine. Waste water like washing water can be used.
3. Add one sanitizer tablet per month into each pit latrine or when the pit latrine begins to release unpleasant odours.
4. The pit latrine can be used immediately.

Advantages

- Simple application with little effort required
- Reliable and cost-effective solution
- Assists in combatting bacteria, odours and insect larvae, helping to combat the spreading of viruses that can be carried by flies, mosquitoes and cockroaches.
- A stable product that has a two-year shelf-life when stored correctly
- High active ingredient in a solid concentrate can potentially reduce storage and transport costs

Packaging

- Ready-to-use packaging with a tear-slot for ease-of-use
- Supplied in a case containing 50 × 200g tablets

* For storage, first aid and safety measures, consult product SDS.

The HTH Scientific® Pit Latrine Sanitizer Tablets are a remarkable solution used to specifically treat pit latrines. A high active ingredient of Calcium Hypochlorite allows for effective treatment, helping to eliminate bacteria, odours and insect larvae associated with latrines. This potentially reduces insect populations and plays a role in combatting the spread of viruses.

About Lonza Water Treatment South Africa

Headquartered in Kempton Park, Lonza Water Treatment South Africa produces biocides such as calcium hypochlorite water sanitizers, related treatment products and feeder systems that are used in treating agricultural water and in the pre- and post-harvest cleansing of fruits, vegetables and poultry. We also provide systems for treating drinking water, wastewater and water used in mining, beverage and other commercial and industrial uses. In addition, one sector of our business supplies the residential HTH® branded swimming pool and spa treatment products.

Lonza Water Treatment South Africa, an ISO 9001:2008 certified company.

« We have been using this product with great success and have received positive feedback from the communities served. »

Lonza Distributor

About Lonza

Lonza is one of the world's leading and most-trusted suppliers to the pharmaceutical, biotech and specialty ingredients markets. We harness science and technology to create products that support safer and healthier living and that enhance the overall quality of life.

Not only are we a custom manufacturer and developer, Lonza also offers services and products ranging from active pharmaceutical ingredients and stem-cell therapies to drinking water sanitizers, from the vitamin B compounds and organic personal care ingredients to agricultural products, and from industrial preservatives to microbial control solutions that combat dangerous viruses, bacteria and other pathogens.

Founded in 1897 in the Swiss Alps, Lonza today is a well-respected global company with more than 40 major manufacturing and R&D facilities and approximately 9,800 employees worldwide. The company generated sales of about CHF 3.64 billion in 2014 and is organized into two market-focused segments: Pharma&Biotech and Specialty Ingredients. Further information can be found at www.lonza.com.
