

Citrine-Plus™ Liquid Algaecide

Effective control for surface filamentous and planktonic algae

Citrine-Plus™ Liquid Algaecide

Aids in controlling a broad range of algae, specifically surface filamentous and planktonic algae. This effective algaecide also treats the rooted plant, Hydrilla. It is a soluble liquid algaecide for use in lakes, potable water reservoirs, ponds, fish hatcheries and raceways; crop and non-crop irrigation conveyance systems (ditches, canals and laterals).

Application

Direct application or via a drip doser.

Application Rate: Minimum – 1.837 mL per m³ @ 0.2 ppm

Maximum – 9.189 mL per m³ @ 1.0 ppm

Do not use in waters containing Koi and hybrid goldfish or other copper sensitive fish. Not intended for use in enclosed-type small volume, garden pond systems that typically operate with pumps and filters.

Typical Properties	Product Packaging
Appearance	Dark Blue Liquid
Odour	Amine
Active Ingredient	Copper Ethanolamine Complex, mixed
Completely miscible	

Advantages

- Can be used with Citrine-Plus™ Granular Algaecide for deeper waters or waters where bottom-growing algae may be found
- Effective within 1 - 2 days after application into the water source
- Once treated, water can be used immediately for animals/livestock, swimming and fishing
- Double chelated formula
- Works in 'hard' water
- Registered with the South African Department of Agriculture, Forestry and Fisheries (DAFF) – Registration Number L9042 of Act 36/1947
- Meets South African National Standards SANS 241-1:2015 and SANS 241-2:2015 potable water standards

Storage

Keep product tightly sealed in original containers. Do not put concentrate or dilute into food and drink containers. Do not reuse or refill container. Do not contaminate feed, feedstuffs, or drinking water. Do not store or transport near feed or food. Store product in a cool, dry, well-ventilated area. Store away and isolate from incompatible materials.

Safety & First Aid Measures

Please consult product SDS. For further information on the effect of copper concentrations on the health of fish the South African Water Quality Guidelines – Agricultural Water Use: Aquaculture (Section Copper) should be consulted.

Packaging

Cutrine-Plus™ Liquid Algaecide is supplied in 10L bottles, 2 units in a case.

Product Code

Cutrine-Plus™ Liquid Algaecide: 13018E

Cutrine-Plus™ Liquid Algaecide is an effective control for surface filamentous and planktonic algae.

An algaecide that can be used in lakes and ponds, amongst other applications.
