

HTH® Chlorine Tablets

Effective Bactericide and Fungicide

Chlorine Tablets

An effective bactericide and fungicide for disinfection of potable water in reservoirs and are used as an oxidizing agent in any sewage water, waste water, cooling water and many other water systems.

Application

HTH® Chlorine Tablets are typically manually dosed into applications or via inline feeders

Typical Properties	
Appearance:	White 200g tablets
UN Number:	1748
Molecular Formula:	Ca(ClO) ₂
Molar Mass:	142.98 g/mol
Density:	2.35 g/cm ³ [20°C]
Melting Point:	100 °C
Boiling Point:	175 °C, decomposes
Solubility in Water:	21g/100 mL

Advantages

- A stable product that has a two year shelf-life when stored correctly. High active ingredient in a solid concentrate reduces storage and transportation costs.
- When used at higher concentrations, it deodorizes and removes organic contaminants that can affect clarity and colour of water.
- Can be supplied in two packaging variants – see packaging section below.
- Raises the pH of the treated water.
- Cost Effectiveness – Due to a high concentration of active ingredient, a relatively small amount of the product can effectively disinfect large amounts of water.
- ISO 9001: 2008 certified.

Storage

Keep product tightly sealed in original containers. Store product in a cool, dry, well-ventilated area and below 35°C. Store away from combustible or flammable products. Keep product packaging clean and free of all contamination, including e.g. other pool treatment products, acids, organic materials, nitrogen containing compounds, dry powder fire extinguishers (containing mono-ammonium phosphate), oxidizers, all corrosive liquids, flammable or combustible materials, etc. Keep out of direct sunlight.

Packaging

HTH® Chlorine Tablets are available in 24kg box (12x2kg canisters) or a 25kg polyprop drum.

Product Codes

- HTH® Chlorine Tablets: 24 (12x2kg canisters).
25T (25kg polyprop drum).

HTH® Chlorine Tablets are an effective disinfectant and are used as an oxidizing agent in any sewage water, waste water, cooling water and many other applications.

An effective bactericide and fungicide, HTH® Chlorine Tablets can be used in potable water applications, such as reservoirs.
